

# PRODUCTS (SE) PIPE LINE CORPORATION

Oil Pipeline Filing  
Products (SE) Pipe Line Corporation  
December 1, 2025

Ms. Debbie-Anne Reese, Secretary  
Federal Energy Regulatory Commission  
888 First Street NE  
Washington DC 20426

Dear Secretary Reese:

In accordance with the requirements of the Interstate Commerce Act and the Rules and Regulations of the Federal Energy Regulatory Commission ("FERC"), Products (SE) Pipe Line Corporation ("PPL") submits for filing the following tariff, effective January 1, 2026:

- FERC No. 155.47.0, Local, Proportional, and Volume Incentive Tariff (cancels FERC No. 155.46.0)

PPL is making this filing to establish a new Volume Incentive Program, located in Item 45 of the tariff, to apply to specific locations on the PPL system if certain criteria are met. For a Shipper to qualify for the Volume Incentive Program, a Shipper must have submitted for receipts to PPL for transportation on the system during the twelve-month period starting November 2024, through October 2025 ("Evaluation Period") an average of 30,000 barrels per day, or 20,000 barrels per day for the Newington destination, all products combined. For a Shipper that meets the volume threshold as described above, gasoline volumes submitted for receipt and shipped on PPL to an applicable destination point will qualify for the applicable Volume Incentive Program rate as follows: (1) as long as the Shipper submits receipts to PPL for transportation on the system for a total average barrels per day (all products combined) in a given month to PPL equal to or in excess of the Shipper's twelve month average daily throughput, as calculated during the Evaluation Period; then (2) the Volume Incentive Program rate will apply to each gasoline barrel delivered by PPL to such point in excess of the Shipper's twelve month average daily throughput for gasoline barrels at such location as calculated during the Evaluation Period.

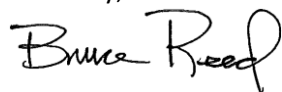

Also, PPL is extending the expiration date of its current airport volume incentive programs. In FERC No. 155.47.0, PPL has extended the expiration date shown in Item 50.3, Airport Volume Incentive Program, to June 30, 2026. All other rates in FERC No. 155.47.0 are unchanged from the prior tariffs.

In accordance with 18 CFR § 343.3(a), PPL hereby requests that any protest of this filing be sent to PPL at the following email address: [Tariff\\_Group@kindermorgan.com](mailto:Tariff_Group@kindermorgan.com).

I hereby certify that a copy of this filing has been sent by means of transmission agreed upon by the subscriber, to all subscribers on the PPL's subscriber list.

If there are any questions regarding this filing, please contact me at (713) 420-4687.

Sincerely,

Bruce Reed  
Director-Tariffs and Regulatory Affairs
