Re: Advice Letter No. 54-O of SFPP, L.P. (PLC-9)

Dear ED Tariff Unit:

In accordance with the provisions of Section 455.3 of the California Public Utilities Code (“PU Code”) and General Order 96-B; Energy Industry Rule 8, SFPP, L.P. (“SFPP”) hereby submits its Advice Letter No. 54-0 increasing by 5.187 percent its rates for the transportation of refined petroleum products on its intrastate pipeline system.

By this filing to be effective March 1, 2025, upon thirty days’ notice to its shippers, SFPP proposes to increase its system-wide, intrastate rates by 5.187 percent. The 5.187 percent increase that is the subject of this Advice Letter is expected to increase annual revenues by approximately \$7.2 million for the twelve-month period commencing March 1, 2025.

The requested rate increases that are the subject of this Advice Letter No. 54-0 are supported by SFPP’s Application No. 24-01-020 (“A.24 Application”) that was filed on January 30, 2024 and seeks an aggregate rate increase of 18.663 percent. Pursuant to the A.24 Application, and in accordance with PU Code Section 455.3, SFPP increased its rates by 10 percent, effective March 1, 2024. SFPP is now seeking to increase its rates by a further 5.187 percent pursuant to the A.24 Application. Attachment A hereto, the Declaration of Erik Wetmore, provides further support concerning the requested rate increases.

Attachment B includes a list of the affected routes, including both the current rate and the proposed rate reflecting a 5.187 percent increase.

Attachment C contains revised tariff pages reflecting the proposed rate increase.

SFPP is providing a copy of this advice letter to its shippers of record (See Attachment D hereto) in accordance with the requirements of General Order No. 96-B. A copy of the required Tariff Summary Sheet is included in Attachment E.

Anyone party who wishes to protest this advice letter may do so by sending an e-mail not later than twenty days after the date of this filing to the ED Tariff Unit at: edtariffunit@cpuc.ca.gov. a letter not later than twenty days after the date of this filing.

Copies of the protest should also be sent via telefax or e-mail, with a hard copy to follow to:

SFPP, L.P.
Mr. Bruce Reed

Director-Tariffs and Regulatory Affairs

Attachment A

DECLARATION OF ERIK WETMORE

DECLARATION OF ERIK G. WETMORE

I, Erik G Wetmore, declare as follows:

1. I am a Principal in the consulting firm Turner Wetmore Collins, LLC, a firm that provides consulting services to the regulated sector of the energy transportation industry.
2. I have more than thirty-five years of professional experience, primarily in advising regulated energy transportation companies on ratemaking and regulatory accounting issues. My experience includes filing testimony in cost-of-service proceedings before the California Public Utilities Commission (“Commission” or “CPUC”), the Federal Energy Regulatory Commission (“FERC”), and various other state regulatory commissions and courts. I received an M.B.A., with concentrations in Finance and Economics, from the University of Chicago Booth School of Business, and a B.A. in Mathematics and Economics from the University of California at Santa Barbara. I also earned a Certified Public Accountant license in the State of California.
3. I have provided testimony on behalf of SFPP, L.P. (“SFPP”), both before this Commission and before the FERC, on multiple occasions.
4. On January 30, 2024, SFPP submitted an application with the Commission, Application No. 24-01-020 (“A.24 Application”), seeking approval to apply an aggregate rate increase of 18.663 percent to certain¹ of its then-current CPUC intrastate transportation rates (“A.24 Application Rates”). I submitted a declaration

¹ In its A.24 Application, SFPP did not seek to change its CPUC intrastate Watson Station Volume/Pressure Deficiency Charge or its Sepulveda Junction CPUC intrastate tariff rate.

supporting the January 2024 Application, which was attached thereto as Exhibit D. I included with my declaration cost-of-service justification that supported SFPP's requested aggregate rate increase of 18.663 percent. The cost of service was based on a 12-month base period from December 1, 2022 through November 30, 2023, as adjusted to reflect changes in (1) operating expenses, (2) rate base, and (3) throughput that were known or reasonably anticipated to occur in the foreseeable future. The purpose of the A.24 Application Rates was to establish appropriate, going-forward rates for SFPP's Commission-jurisdictional pipeline system.

5. In accordance with the Assigned Commissioner's Scoping Memo and Ruling issued on August 16, 2024, I submitted Prepared Supplemental Direct Testimony on October 7, 2024 that addressed, among other things, SFPP's proposed A.24 Application Rates. That testimony was marked Exhibit No. EGW-0018.² Due to the passage of time, I developed an updated 2024 Test Year cost of service to support SFPP's proposed going-forward rates. To develop the updated 2024 Test year cost of service, I started with a base period that included actual operating expenses recorded in the 12-month period from March 1, 2023 through February 29, 2024³ and property placed into service as of December 31, 2023. I then made certain adjustments to that base period data to reflect changes that were known or reasonably anticipated to occur in the foreseeable future, so that the 2024 Test Year cost of service reflected the operating conditions that are expected to persist during

² An updated version of my testimony that incorporated certain errata I identified was submitted on December 3, 2024 and was marked Exhibit No. EGW-0018A.

³ This was the same cost data used to develop my cost of service for SFPP's Application No. 23-01-016 locked-in period (as also discussed in Exhibit No. EGW-0018A) and its use facilitated an efficient and consistent resolution of the issues.

the period in which the requested rates will be in effect. The updated 2024 Test Year cost of service, inclusive of my errata, supported an aggregate rate increase of 15.706 percent under the A.24 Application. Exhibit No. EGW-0018A at Figure 6.

6. I can confirm that during the time period since the submission of my Prepared Supplemental Direct Testimony regarding SFPP's A.24 Application Rates, volumes transported on SFPP's Commission-jurisdictional pipeline system have remained consistent with SFPP's 2024 Test Year volume projections, and costs have not decreased. Therefore, I believe SFPP's proposed rate increase of 5.187 percent that it is seeking in Advice Letter No. 54-0, which combined with the 10 percent rate increase that SFPP applied effective March 1, 2024, is within the rate increase sought in the A.24 Application is reasonable and appropriate.

The foregoing declaration is submitted under penalty of perjury in accordance with the laws of the State of California.

Dated: January 29, 2025

Erik G. Wetmore

ADVICE LETTER SUMMARY SHEET

ADVICE LETTER SUMMARY

ENERGY UTILITY

MUST BE COMPLETED BY UTILITY (Attach additional pages as needed)

Company name/CPUC Utility No.:

Utility type:

- ELC GAS WATER
 PLC HEAT

Contact Person:

Phone #:
E-mail:
E-mail Disposition Notice to:

EXPLANATION OF UTILITY TYPE

ELC = Electric GAS = Gas WATER = Water
 PLC = Pipeline HEAT = Heat

(Date Submitted / Received Stamp by CPUC)

Advice Letter (AL) #:

Tier Designation:

Subject of AL:

Keywords (choose from CPUC listing):

AL Type: Monthly Quarterly Annual One-Time Other:

If AL submitted in compliance with a Commission order, indicate relevant Decision/Resolution #:

Does AL replace a withdrawn or rejected AL? If so, identify the prior AL:

Summarize differences between the AL and the prior withdrawn or rejected AL:

Confidential treatment requested? Yes No

If yes, specification of confidential information:

Confidential information will be made available to appropriate parties who execute a nondisclosure agreement. Name and contact information to request nondisclosure agreement/ access to confidential information:

Resolution required? Yes No

Requested effective date:

No. of tariff sheets:

Estimated system annual revenue effect (%):
